3. Learn about 2 Animals, 1 Bird, and 1 Reptile that live in the Grassland
4. Complete 2 Crafts about the Rainforest or Grassland
5. Complete 2 Activities/Games about the Rainforest or Grassland

Helps

1. Rainforests are areas of the earth with high rainfall (between 98 and 177 inches annually), they make up 6% of the earth, and contain over 1/2 of the known plant and animal species. Grasslands (can also be called prairie) are areas where the vegetation is dominated by grasses. All continents but Antarctica have grasslands. Find books with more information at your library or look online.
2. There are so many to choose from, let the Adventurers help you decide which ones they would like to learn about.
