

Native American Study

1. Learn about Native Americans from four regions of the country and learn how where they lived affected their clothing, food, transportation, and dwellings.
2. Draw pictures or make a diorama to show the differences between the four areas.
3. Learn Psalms 46:10.
4. Make a Native American craft.

Helps

1. Homes varied from ice blocks to animal skins, from being permanent to a structure that could be easily moved depending on what was available for food and what the weather was like. Everything about their lives was affected by where they lived. Try to choose areas that vary enough to make your study interesting.
2. An easy way to make a diorama is to take four file folders and tape/glue them together back to back to create four sections for your four regions.
3. This verse talks about nations which is how the Native Americans referred to themselves.
4. Look online for ideas; Oriental Trading Company and S&S Worldwide have easy options for crafts.
