

Sharing of Costs for New/Transfer Teachers

When openings for teachers occur in schools operated by Northern California Conference, the NCC Office of Education will work with school boards to find qualified individuals to fill the positions. The costs related to interviewing of these individuals will be shared equally between the local school and NCC upon approval of the superintendent.

Should it be necessary to employ an individual who comes to NCC with unamortized expenses, the cost for payment of these expenses will be shared equally between the local school and NCC upon approval of the superintendent.
